He was just the best guide we ever had. We think we're not sure? He showed us really interweaving places, not just ordinary things and told us not-so-well-known facts about the whole area. His English is just great, it is not so common in Ukraine to have a free-talking guide. Let us know the details of your trip to Ukraine and your preferences. We will do everything we can to guide you, you, You and adapt the journey to your exact needs! Visit the country of Ukraine and try your hand at shooting a Kalashnikov! The world's most famous AK 47 rifle comes in both automatic and semi-automatic versions, both of which can be judged during a special tour during their stay in Kiev. After the excitement of spending the day experiencing this famous rifle, visit the magnificent UNESCO landmark, Lavra Monastery and caves. Starting in 1051, the caves were specially dug for monks who demanded complete seclusion. This beautifully golden dome-shaped eastern Orthodox complex of churches, temples and chapels sits on 70 acres. Also on the UNESCO World Heritage List is St. Sophia Cathedral, located in Kiev. Plans to destroy this amazing cathedral complex during the Soviet era were gratefully stopped by a team of historians and scientists. Now it is one of the most famous sites in Ukraine. St. Volodymyr's Cathedral, located in the center of Kiev, is the center of the Ukrainian branch of the Orthodox Church. Since the mid-1800s, this cathedral has had far more recent construction than two Unesco World Heritage sites. The towering vaulted interior is many painted with biblical scenes, and the exterior is an elegant design of arches and domes. This is one of the most famous sights of Kiev and just blinds the eyes. A poignant visit to the Babi Yar memorial re-tells the tragic history of genocide that occurred here during World War II. More than 33,000 Jews lost their lives when they were told to gather with all their valuables at the site. Large monuments, built after the Soviet era, commemorate the horrors that occurred here just outside Kiev. My name is Victor Singleton. Previouslyneed Ukrainians often break the rules on the roads, and a person needs to get used to his driving style to feel calm on the streets. No one would want to get into a car crash in Ukraine and deal with Ukrainian car rental companies, insurance companies and the police. When you have your own driver, the responsibility for driving lies entirely on it and you can focus on sightseeing and enjoy your holiday. Due to the state of the roads, heavy traffic in some places, and some local driving features, so having a car and driver on hand everywhere will make your trip safe, relaxing and enjoyable I look forward to seeing you on my tour tour
